NYARM Magazine & Website Ad Rates

Dear Interested Advertiser,

As a company that believes in promoting your business, the New York Association of Realty Managers offers you a unique opportunity. NYARM adds great value to your business because the buildings you do business with should be managed by informed and educated professional managers.

Our magazine is a uniquely effective vehicle to carry your message. Managers frequently use our magazine for reference purposes and keep it close by, which means that your message and telephone number is right at their fingertips!

Our advertising rates are very competitive and I personally supervise the circulation, which has grown to 9000 copies and primarily to Building Managers, Managing Agents, Resident Managers or Superintendents, as well as Board Members and professional owners. Please call me at 212-216-0654 for all the details.

chimneyguy8@aol.com
www.advancedchimney.org

Advanced Chimney does all Chimney Work: (fireplace/boiler, commercial/residential). We are experts in cleanings, caps, re-lining, openings & closing chimney, extensions, new construction, re-pointing, brick-work, pre-fab builds...you name it, we do it! We have been in business since 1997, and have in-house cumulative experience in all aspects of chimney work. Advanced Chimney is recommended more than any other company in its field. We are honest, reliable and our work is reasonably priced.

Table F**Aegis Energy Services, Inc.**

55 Jackson Street
Holyoke, MA 01040
Tel: 413-536-1156 Fax: 413-536-1104
Dale Desmarais, Director of Sales & Marketing
www.aegisenergyservices.

Aegis Energy Services, Inc. is the leader in modular on site combined heat and power (CHP) generation. Since 1985, we have been dedicated to designing, manufacturing, installing, maintaining and operating CHP systems for your clients from the Northeast to Washington D.C. These CHP systems reduce a facility's dependence on expensive utility power and lower its energy costs and carbon footprint. Dual purpose systems also available that provide stand-by power in addition to cost savings. Aegis Energy Services conducts a complimentary site evaluation and detailed economic analysis prior to recommending a CHP system for a client's facility.

Booth # 9**Aggressive Energy Group**

78 Rapelye Street, Brooklyn, NY 11231
Tel: 718-836-9222 Fax: 718-643-6356
www.AggressiveNY.com

Aggressive Energy provides a range of comprehensive energy solutions and services. From boiler maintenance to installations, our performance demonstrates experience and professionalism. We lower heating costs by offering competitively priced heating oil and bio-fuels. As a registered Energy Service Company, we are consistently providing our clients a savings on their electric and natural gas purchases. We are also leading the way in our region's energy frontier by exploring new energy efficient technologies for oil-to-gas conversions mandated by the City of New York. Please contact us with any questions. We look forward to working with you!

 barry.heller@hercnet.com
 www.hercnet.com

Hercules is a family-owned business since 1959, with an unmatched reputation for providing customized laundry facilities in the multi-housing marketplace. Hercules is an experienced user of Smart Card technologies for laundry room equipment, and a three time winner of the Maytag Multi-Housing Excellence Award. In 2013, Hercules was awarded for their exceptional promotion and advocacy of energy and water efficiency with the Maytag Commercial Laundry Energy Advantage Award. "This award exemplifies our mission to help customers reduce cost and increase efficiency. We've made great strides in our commitment to environmental responsibility, and we are proud to have our efforts recognized," stated Andrew May, President and CEO of Hercules in accepting the award. With a service-focused foundation, combined with leading-edge technology, Hercules offers their customers convenience, expertise and an overall superior laundry room experience. Hercules has grown into a company with over 110 employees, and is now a third-generation family business with the addition of Adam May in 2011. Hercules provides end-to-end laundry room design, installation, management and service for the multi-housing, colleges/universities, hospitals and on-premise markets in New York, New Jersey, Connecticut and Pennsylvania.

**CODE
compliance**

AVOIDING CODE VIOLATIONS BECOMES AUTOMATIC WITH NOUVEAU'S "INVUE" PROGRAM.

In New York City, more than anywhere, things seem to change almost overnight—fashion, technology, apartment listings—even hot restaurants. Just recently, changes to the safety code placed many buildings out of compliance and at risk for numerous fines. That's one reason why Nouveau created the InVue™ reporting system.

With InVue's reporting system, your building can quickly and automatically be notified of every change in safety code within 24 hours. Also, InVue can monitor your entire vertical transportation system to pinpoint problems as well as do preventive maintenance that ensures immediate code compliance. At Nouveau we're raising New York.

Time Is Running Out For No. 6 Oil

A recent **DEP rule change** requires buildings using No. 6 heating oil to **convert** to a **cleaner fuel** alternative by **2015**. And if the boiler's operating permit expires before then, those buildings will have to make the switch even sooner. The options: No. 4 oil (good until 2030), No. 2 oil, gas, or a dual-fuel system.

If your boiler burns No. 6 oil, Rand can determine the building's heating requirements and fuel usage, estimate the **savings** and **payback** for conversion, and design and administer the heating plant upgrade. We'll also guide you with **rebate programs** from Con Ed and NYSERDA to help defray the costs.

For more information on **surveying** your **heating system**, contact Rand at (212) 675-8844; info@randpc.com. Before No. 6's number is up.

Tired of paying to heat the entire city? Heat-Timer controls help property owners effectively regulate boiler system output, so tenants stay comfortable and BTU's stay INSIDE the building where they belong.

Heat-Timer's internet Control Management System (ICMS) and wireless sensors allow owners to monitor space temperatures, water usage, and oil tank levels, so buildings stop wasting fuel and water.

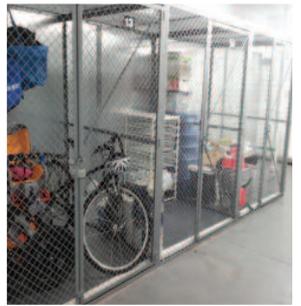

Contact us to schedule a FREE Boiler Systems Survey. E-mail us at FreeSurvey@heat-timer.com and a Systems Specialist will contact you to schedule an appointment.
